Experience (Projects)

Le Wagon

NABO, FULL STACK DEVELOPER

- I was a member of the development team, participating in both back-end and in front-end development. **Nabo** is a small AirBnB-modeled platform which was created for people who need help with small daily tasks, and who don't have close friends or neighbors they can ask.

Berlin, Germany

Mai. 2019 - Jun. 2019

Le Wagon

AIRDND, FRONT-END DEVELOPER

- Coding a clone of "Airbnb" from scratch in a team in 5 days, I was mostly focused on the front-end and UI.

Berlin, Germany

Mai. 2019 - Mai. 2019

Le Wagon

COMING SOON..., FULL STACK DEVELOPER

- My own project I'm working on.

Berlin, Germany

Mai. 2019 - ?

Rhenus Maritime Services GmbH

IT-SUPPORT TECHNICIAN, INTERN(INTERNSHIP REFERENCE)

Duisburg, Germany

Oct. 2018 - Apr. 2019

- Supervised the project "Cyber Security Management" by working in Technical Department and helped the company to pass a security audit by creating all technical instructions in LaTeX about Cyber Risk Assessment for the personnel on company's ships and on shore.
- Created more visual documentation of files for more efficient use and better user experience, using LaTeX and cloud-services.
- Helped other company employees to understand some technical issues if they asked.

Presentations

The presentation "Mensa 2.0"

Ruhr-University Bochum, Germany

PRESENTER FOR "MENSA 2.0: HOW TO IMPROVE THE DINING ROOM AT THE UNIVERSITY USING IT-TECHNOLOGIES."

Jul. 2018

- The main theme was to know how to proceed systematically with the creation or adaptation of large Software products. How to specify requirements and how to implement them, verifying success correctly. Here are **the first** and **the second** examples of our work.

Personal Information
